

中国科学院城市环境研究所（厦门）国际项目招聘

Science Officer/Postdoc (full-time)

at the International Programme Office of the
ICSU-UNU-IAMP Programme on *Health and Wellbeing in the
Changing Urban Environment: a Systems Analysis Approach*

The International Council for Science (ICSU) developed a 10-year science programme, entitled Health and Wellbeing in the Changing Urban Environment: a Systems Analysis Approach. Co-sponsored by the Inter-academy Medical Panel (IAMP) and the United Nations University (UNU), this programme proposes a new conceptual framework for considering the systemic nature of both determinants and manifestations of health and wellbeing in urban populations.

The science programme will focus on promoting and coordinating research projects, identifying data needs and knowledge gaps, building and strengthening scientific capacity, and facilitating the co-production of knowledge with stakeholders ranging from civil society organizations, business and policy making.

The international Programme Office (IPO) is hosted by the [Institute of Urban Environment](#) (IUE), Chinese Academy of Science (CAS) in [Xiamen, China](#).

We are seeking to fill the position **of a science officer (postdoc)**.

The science officer will be reporting to the executive director of the programme. The successful candidate will

- be interested in working in an intercultural and interdisciplinary environment.
- aim at advancing her/his capabilities in academia in any field related to the programme activities and contribute to fundraising and writing research proposals.
- have excellent **Chinese** and **English** language skills.
- have a talent to communicate and network with stakeholders in China and abroad.
- have a PhD in any field related to environment, health and wellbeing.

We offer:

- office place, equipment, and competent support staff.
- opportunity for international travel
- a salary equivalent to the candidate's qualifications and according to IUE, CAS salary regulations

Starting data: 1. September 2017

Interested candidates are encouraged to apply for the position as soon as possible. The position is open until filled.

Further inquiries about the position and the programme can be sent to:

Dr. Franz Gatzweiler (executive director); gatzweiler02@gmail.com

Interested candidates please send your CV, the scanned copy of diploma certificates and a letter of motivation to Ruan Xiaoxia: xxruan@iue.ac.cn

Please indicate "Science Officer Application" in the subject of your email.
